

GOV. LUJAN GRISHAM CONTINUES TO DOUBLE DOWN ON HER FAILED PANDEMIC ORDERS

*LATEST DECREE TO EXTEND INDOOR MASK MANDATE AND ENCOURAGE
BOOSTER SHOTS ANOTHER DISMAL ATTEMPT TO FIX A WORSENING PROBLEM*

Albuquerque, November 15—Gov. Lujan Grisham continues her illogical Public Health Orders as New Mexico keeps seeing COVID numbers spike under her administration.

Her latest panic move is to follow other states and push for booster shots and to extend her own irrational indoor mask mandate that's failed to do anything in this health crisis.

The following is a statement from Republican Party of New Mexico Chairman Steve Pearce:

“The COVID numbers keep climbing even with Lujan Grisham’s forced mask mandates. Instead of extending the indoor mandate, which doesn’t have real science to support it, she should focus on the superspreader at the border. Lujan Grisham continues to turn a blind eye toward the border health threat that keeps coming into our state. With more than 200,000 people per month crossing the border without health checks, without vaccine mandates, without masks being required and with many of them known COVID positive, I would secure the border and require the Biden administration cease the practice of dispersing immigrants without health checks in New Mexico.”
