

Redistricting Process Raises Concerns

The League of Women Voters of New Mexico is profoundly disappointed in the New Mexico Senate. The Senate Districts maps as presented only pay lip service to the very important work done by the Citizens Redistricting Committee. This is an example of “buddymandering” in which incumbents have been protected at the cost of fairness and equity. The process has been conducted with little to no transparency.

We agree with the sentiments of the NM Foundation for Open Government. They, too, believe that New Mexicans deserve better.

Hannah Burling, President
