

**REPUBLICAN PARTY OF NEW MEXICO STATEMENT ON JUDGE
KETANJI BROWN JACKSON'S CONFIRMATION TO THE U.S.
SUPREME COURT**

Albuquerque, April 7—The following is a statement from RPNM Executive Committee member Jewll Powdrell regarding today's Senate confirmation of Judge Ketanji Brown Jackson to the U.S. Supreme Court. The vote was 53-47.

"Today's confirmation vote was another victory for the extreme left. President Biden's pick was one promoting radical policy and leftist interpretation of the law. Judge Jackson may make history with her confirmation, but her sentencing record is questionable, particular when it comes to those in child pornography cases, where she handed down light sentences to offenders. When asked during hearings, Jackson was also unable to define what a woman was. This kind of progressive, radical thinking is dangerous when it comes to sensitive and important interpretations on the High Court."
