

Construction Notice: Ragle Park Slide Installation Begins Today

Play Structures Closed for Safety

The construction of the new playground slide at Ragle Park begins today, May 23, 2022, and will continue through the end of the week. The Parks and Open Space Division has contracted with Exerplay, Inc. to install the new slide, soft surface foam, and climbing nodes.

The adjacent play structures at Ragle playground will be closed during construction. **Residents should maintain a safe distance from equipment, materials and constructions workers until the work is complete.**

Construction on the new equipment is expected to be completed by the end of the month.
