

RPNM Statement on International Women's Day

On this International Women's Day, the Republican Party of New Mexico commemorates women whose brilliant minds, bold spirits, and selfless love have inspired and influenced the course of world history.

They are our mothers, sisters, daughters and the life-giving soul of our societies.

Today and every day, may we honor women's beautiful, powerful, and irreplaceable impact on the world. It's our duty to ensure women's legacies are never diminished or erased.
