Senator Craig Brandt Passes Career Technical Training Bill Through the Senate

Senate Bill 108 would support trade programs in Middle and High Schools

SANTA FE — Today, the Senate passed Senate Bill 108 with unanimous, bipartisan support. Senate Bill 108 is one of several bills introduced by Senate Republican Whip, **Senator Craig Brandt** (R-Rio Rancho), aimed at bolstering career technical education.

Senator Brandt issued the following statement regarding the passage of his bill:

“I want to thank my colleagues for recognizing the importance of trade programs in New Mexico. This bill adds a Career Technical Education (CTE) program unit to the funding formula, ensuring that our high school graduates who do not pursue a college degree have other opportunities to pursue a well-paying career.”

Senate Bill 108 will now be sent to the House of Representatives.
