

Meeting Set to Discuss PNM Fort Marcy Tree Mitigation

PNM will hold an informational meeting Tuesday, April 30 at 5:30 pm at the gazebo shade structure adjacent to the Arroyo Mascara to discuss upcoming tree mitigation at Fort Marcy Park.

PNM and two of its certified utility arborists determined that PNM should remove the trees interfering with high-voltage lines to resolve potential tree and power line issues along the edge of the arroyo.

The April 30 meeting will allow PNM to address any concerns constituents may have. Work is anticipated to begin in mid-May and end in mid-June.

For more information contact: Jamie Aranda, Community Relations Manager, Northern NM, PNM Resources, 505-438-6987, jamie.aranda@pnmresources.com.
