New Mexico Museum of Natural History & Science Offers Virtual Field Trip of “Tiny Titans” Exhibit

Step way back in time with New Mexico Museum of Natural History & Science paleontologist Dr. Thomas Williamson and traveling exhibits educator Dr. Misty Carty as they guide you through a free virtual field trip of the Museum’s temporary exhibit “Tiny Titans: Dinosaur Eggs and Babies” at 3 p.m. MDT on Tuesday, May 11, 2021.

“Tiny Titans” features New Mexico’s young dinosaurs from the late Cretaceous period, such as the Bisti Beast, Pentaceratops, and Parasaurolophus, and includes unique fossils and addresses how dinosaurs gave birth and raised their offspring. Explore how these young prehistoric reptiles compared to the adults of their species.

What: Virtual field trip of the exhibit “Tiny Titans: Dinosaur Eggs and Babies”

When: Tuesday, May 11, 2021, at 3 p.m. MDT

Where: Zoom. To register, click [here](#) or visit https://nmculture-org.zoom.us/webinar/register/WN_7TmjUVkIR6uNRjhtUbTzlw?fbclid=IwAR375Q8JVf_MZPhqRB0Jdc6cfQTjdNkGxaaLnHgE-C6JGtjX9EYpWy4tYNO

Why: This event is designed to enhance the experience of the exhibit “Tiny Titans: Dinosaur Eggs and Babies,” currently on view at the New Mexico Museum of Natural History & Science
