

Rep. Herrell Receives A+ Rating from Pro-Life Susan B. Anthony List

WASHINGTON - Rep. Yvette Herrell has been awarded an "A+" rating by the Susan B. Anthony List, a non-profit organization that supports pro-life candidates.

"I am honored to fight for babies and their mothers in Congress every day. Our laws should reflect what science, ethics, and tradition tell us: children in the womb are human beings who have a Right to Life. This also means building a society that supports and celebrates moms and their kids as they grow."

117th Congress

Rep. Yvette Herrell

NM-02 (Republican)

Congresswoman Herrell has stood up against the pro-abortion agenda of the Biden-Harris administration and Pelosi Democrats who are actively working to expand abortion access and abortion funding. Rep. Herrell has voted consistently to defend the lives of the unborn and infants. This includes stopping hard-earned tax dollars from paying for abortion, whether domestically or internationally, and protecting health care provider rights for those who refuse to engage in brutal abortions.

Rep. Herrell pressed witnesses in a hearing on the Equal Rights Amendment to admit that the ERA would force taxpayers to fund abortion.
