Senator Crystal Diamond Appointed to RSLC National Executive Committee

ELEPHANT BUTTE – Senator Crystal Diamond (District 35-Sierra, Luna, Dona Ana, and Hidalgo) was appointed this week to the Republican State Leadership Executive Committee (RSLC). Her appointment signals renewed national interest in New Mexico as a target state. She joins Representative Kelly Fajardo (District 7-Valencia) and other lawmakers from around the nation on this committee.

Following the announcement Senator Diamond released the following statement:

“I’m excited to be considered as a voice for our state and our future. It’s my strong belief that New Mexico is on the verge of a fundamental shift and an across the board rejection of the Democrat’s century of failed leadership.

The discontent with this Governor and Democrat legislators is at an all time high. They have failed our students, made us the most unfriendly state for business, gutted our energy industry and abandoned our rights. It’s time for a new chapter in our state’s history and I’m eager to play a role in our future.”

In the 2019-2020 election cycle alone, RSLC spent a record \$45+ million, directly contributing to Republican victories across the country. Diamond’s appointment to the committee gives New Mexico legislative races more visibility on a national level among key Republican donors and

support systems. "I am exceedingly proud of how the RSLC led the way for historic wins in Virginia and New Jersey in 2021 despite being drastically outspent by national Democrats," said RSLC President Dee Duncan. "Our new executive committee members will play key roles in providing Republicans across the country the resources they need to fight back against the liberal money machine, keep winning tough races, and shape the direction of the Republican Party for years to come."
