

Sending on behalf of Bonnie Plants:

New Mexico third graders eligible for Bonnie Plants Cabbage Program

Spring registration for the Bonnie Plants 3rd Grade Cabbage Program is now open. Through this hands-on science lesson, students will learn about backyard ecology and plant life cycles by growing colossal cabbages and reaping hefty harvests. Students also vie for “Best in State” bragging rights, with a \$1,000 scholarship awarded to one student in each participating state.

Participating in the [Bonnie Plants 3rd Grade Cabbage Program](#) is completely free. Teachers, parents or administrators [may register](#) an entire class or a student. The registration deadline for New Mexico is Monday, March 21. Cabbages will be delivered by mail during a selected shipping window. After you’ve signed up, Bonnie Plants will follow up with instructions just in time for planting, growing and harvesting, as well as many other useful resources to help students learn and succeed along the way.
