

## **U.S. SUPREME COURT RULING ENDING PROGRAM THAT TURNS AWAY MIGRANTS WHO POSE HEALTH RISKS WILL LEAD TO SURGE OF ILLEGAL MIGRANTS**

*DECISION TO LIFT TITLE 42 THROWS OUT A WELCOME MAT TO  
MILLIONS OF MIGRANTS TO ILLEGALLY CROSS OUR SOUTHERN  
BORDER*

**Albuquerque, June 30**—Today's 5-4 ruling by the U.S. Supreme Court giving President Biden the authority to stop Title 42 will lead to more chaos at the southern border and a wave of unchecked migrants.

The facts are clear: Biden created the worst crisis at the border in history. Just last month more than 239,000 illegal immigrants were apprehended trying to cross the U.S.-Mexico border.

More than 3.5 million illegal migrants have crossed the border since Biden took office.

These migrants are coming into the nation with no health checks or background checks.

The border calamity is leading to deadly consequences.

The death toll of migrants found abandoned inside a tractor-trailer in San Antonio, TX several days ago has climbed to 53. That's the deadliest tragedy to claim the lives of migrants smuggled across the border from Mexico in recent history.

Biden, along with Gov. Lujan Grisham, refuse to secure our border, virtually inviting more illegal migrants to commit human trafficking, drug smuggling and other crimes. They have simply failed to protect citizens.

"The Court's decision essentially ending President Trump's 'Remain in Mexico' policy is disappointing and dangerous," said RPNM Chairman Steve Pearce. "Ending Title 42 will lead to a wave of migrants pouring into our nation without proper health checks and background checks, endangering our communities. Hundreds of thousands of illegal migrants are crossing the southern border into New Mexico and other states every month. The Biden Administration has created a humanitarian crisis, and it will worsen when Title 42 is over. Meantime, Gov. Lujan Grisham's lack of action to secure our border will exacerbate this crisis. She continues to endanger the lives of New Mexicans by doing nothing to curb this threat to our state's communities."
