

**We have two great guests on the show this week!**

Larry Behrens of "Power the Future" is a prominent voice and advocate for American energy in New Mexico. He shares his expert insight on the corruption within the Biden administration surrounding electric vehicles and why the governor's push to ban gas-powered cars will be a disaster.

Carlos Marrujo, a candidate for City Council in Roswell was a former Democrat and recently changed his affiliation to Republican. He talks about what changed his mind, explains why he and many other moderate, traditional Democrats feel abandoned by the party and what he'll do to fight for New Mexico's children to have a brighter future.

Steve defends Israel's right to defend itself and explains why the New Mexico Democratic representatives calling on Israel for a ceasefire against Hamas are misguided. He discusses why Democrats are weak on terrorism and gets into exposing Rep. Gabe Vasquez's soft border bills. **Tune in to hear it all and more!**
