Luis Terrazas Files to Run for Reelection to the New Mexico State House

Silver City — State Representative Luis Terrazas today filed paperwork to run for reelection in District 39. Luis is currently in his second term during which he fought for legislation that specifically benefits the interests of the people of his district.

Over the last several sessions, Terrazas has worked on bills that kept rights, jobs, and families intact including:

- Protecting our farmers and ranchers and their livelihoods
- Advocating for law enforcement and their resources, ensuring they have the manpower they need
- Remaining strong on keeping parents involved in their child's education and improving educational outcomes
- Fighting for the district's mining jobs and to preserve the energy jobs that provide the state's largest revenue for schools, and
- Fighting to stop mandatory taxes on businesses and working families.

"There is a battle in the roundhouse for our values every day that we're in session," said Terrazas. "We have farmers, ranchers, businesses, veterans, and families who are counting on someone to speak up for them. I am proud to be their voice and I will continue to protect their interests boldly and passionately."
